

Meritor Part

Meritor Parts - Meritor is a leading global supplier which is proudly built on a 100 year custom of quality and service. They concentrate on several modules, integrated systems and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage within the global operations. The company values their customers and would like to ensure their success while anticipating their diverse needs. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and hiring over eleven thousand two hundred people, Meritor encourages collaboration and innovation among a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused staff. These top-caliber people could rapidly get used to to changing environments and freely exhibit the level of performance and commitment necessary in order to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers their staff different chances for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, suspension and braking systems intended for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their global engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum development at their aftermarket distribution facilities and production plant which are situated on 5 continents and in 19 nations.

They have their supplier network that is specially situated so as to support the growth of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean techniques.
