Clark Totalift, covers more than 120,000 specific components designed for 20 distinctive brands of forklifts and automated equipment. Your regional Clark Dealer is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very impressive worldwide support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark's relentless effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly facilities for the reason that this method is particularly economical and enables minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective ways for production facility management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the effectiveness and excellence of their merchandise while minimizing costs. The new value engineering program combines modern product development and offers superior consumer support and service within the industry.
